

DATA SHEET

Celona 5G LAN Subscriptions

Designed ground up for private wireless enterprise customers

Celona 5G LAN delivers an end-to-end solution from the radio, core, spectrum management to network and subscriber management systems to easily deploy private wireless solutions at enterprises. By offering this turn-key solution as a subscription inclusive of hardware, software, support and warranty, Celona is further enabling ease of engagement with customers.

Celona 5G LAN

Unlike traditional small cells that require configuration of various radio parameters and integration with mobile core from a third party vendor, Celona LTE/5G private wireless service subscriptions are included as a part of Celona's 5G LAN platform that integrates the essential elements including access points, LTE/5G core network edge hardware/software, radio resource management software and cloud-based orchestration tools specifically designed and developed for enterprise network use-cases.

5G LAN Value Prop

- Turn-key solution, designed for the enterprise
- Deterministic performance for mission-critical applications
- Enterprise friendly management and operations
- Global 5G private wireless spectrums supported by AP 21 and AP 22
- Secure Wireless Communications

Celona's 5G LAN

What's included?

Access Point enables LTE/5G private wireless network (detailed AP specifications can be found at celona.io/access-points).

AP Accessories facilitate installation & AP bring up.

AP 11 / AP 21

- Mount bracket for pole and wall mount
- GPS mount kit
- Power adapter with regional plugs
- SFP optical module

AP 12 / AP 20 / AP 22

- Wall and Ceiling Mount
- T-Bar Mount
- PoE injector

AP 13/AP 13E

- Pole and Wall Mount
- PoE injector
- GPS antenna for AP 13E (built-in GPS synchronization for AP 13)

Celona SIM Cards connect devices to Celona 5G LAN network.

AP 12 / AP 20 / AP 22

- 20 SIM cards included per AP

AP 11 / AP 13 / AP13E / AP 21

- 40 SIM cards included per AP

Celona Edge Software delivers the required control and data plane services for a private mobile network

Celona Orchestrator enables Celona 5G LAN network configuration, SIM provisioning, policy automation, KPI monitoring, AI-powered assistance and more.

- Celona access points are covered with limited lifetime warranty as long as they are operational under an active subscription
- Celona express technical support is included
- All Celona access points conform with regional certifications & compliance requirements (details can be found at celona.io/access-points)

Edge Appliance and External Antennas are purchased separately.

Ordering made easy

1 Pick Access Point

- 5G/4G
- Indoor/Outdoor
- 48/n77/n78
- Select antenna

2 Pick a Subscription (3-yr, 5-yr)

- Access Point Hardware
- Celona Edge Software
- Celona Orchestrator
- SIM cards
- Support and Warranty
- Renewals: 1-yr, 2-yr

3 Order Appliance

- Pre configured Celona Edge
- Sizing based on # APs

Ordering Information

4G Subscription SKU

Description

Included Access Point

CN-SUB-INDI-3	3 year indoor 4G private wireless service subscription for one indoor access point including management, SIM provisioning, mobile core services via Celona Edge and Celona Orchestrator software. Includes 4G category A b48 (3550-3700 MHz) access point with integrated antennas, Celona express technical support, limited lifetime warranty and 20 private SIM cards.	AP12
CN-SUB-INDI-5	5 year indoor 4G private wireless service subscription for one indoor access point including management, SIM provisioning, mobile core services via Celona Edge and Celona Orchestrator software. Includes 4G category A b48 (3550-3700 MHz) access point with integrated antennas, Celona express technical support, limited lifetime warranty and 20 private SIM cards.	AP12
CN-SUB-OUTE-3	3 year outdoor 4G private wireless service subscription for one outdoor access point including management, SIM provisioning, mobile core services via Celona Edge and Celona Orchestrator software. Includes 4G category B b48 (3550-3700 MHz) access point, Celona express technical support, limited lifetime warranty and 40 private SIM cards. Separate external antennas purchase required.	AP11
CN-SUB-OUTE-5	5 year outdoor 4G private wireless service subscription for one outdoor access point including management, SIM provisioning, mobile core services via Celona Edge and Celona Orchestrator software. Includes 4G category B b48 (3550-3700 MHz) access point, Celona express technical support, limited lifetime warranty and 40 private SIM cards. Separate external antennas purchase required.	AP11

4G Subscription SKU

Description

Included Access Point

CN-SUB-MPWE-3

3 year 4G private wireless service subscription for one medium power access point including management, SIM provisioning, mobile core services via Celona Edge software and Celona Orchestrator cloud service. Includes 4G category A/B b48 (3550–3700 MHz) access point, Celona express technical support, limited lifetime warranty and 40 private SIM cards. Separate external antennas purchase required.

AP13E

CN-SUB-MPWE-5

5 year 4G private wireless service subscription for one medium power access point including management, SIM provisioning, mobile core services via Celona Edge software and Celona Orchestrator cloud service. Includes 4G category A/B b48 (3550–3700 MHz) access point, Celona express technical support, limited lifetime warranty and 40 private SIM cards. Separate external antennas purchase required.

AP13E

CN-SUB-MPWI-3

3 year 4G private wireless service subscription for one medium power access point including management, SIM provisioning, mobile core services via Celona Edge software and Celona Orchestrator cloud service. Includes 4G category A/B b48 (3550–3700 MHz) access point with integrated antennas, Celona express technical support, limited lifetime warranty and 40 private SIM cards.

AP13

CN-SUB-MPWI-5

5 year 4G private wireless service subscription for one medium power access point including management, SIM provisioning, mobile core services via Celona Edge software and Celona Orchestrator cloud service. Includes 4G category A/B b48 (3550–3700 MHz) access point with integrated antennas, Celona express technical support, limited lifetime warranty and 40 private SIM cards.
